Reading Training

Course Description:

The traditional Ayurvedic art and science of reading the pulse is one of the most powerful tools to diagnose many imbalances of the body, mind, and spirit. Pulse reading can identify where these imbalances are affecting our health and provides information about which treatments can be effective in restoring the balance. Join us and learn to feel and “hear” the body’s inner intelligence as it speaks through the subtle qualities of the pulse. It allows a practitioner to detect imbalances and quickly discover the state of the body, mind, and emotions before they manifest as a disease. This allows us to utilize the appropriate Ayurveda/Siddha-Veda techniques to restore balance and health.

Course Content:

- The history and philosophy of pulse diagnosis
- Pulse as described in ancient secrets – Siddha Veda literature
